

Publishing to the KY GeoNet *FREE Workshop*

During the 2005 KY GIS Conference
Monday, August 22
2:00 – 5:00 p.m.

Instructor: Kent Anness
KY Division of Geographic Information

The workshop will provide an overview of the metadata functionality of the Kentucky Geography Network (KYGEONET) and specific details on the steps necessary to become a publisher. Step-by-step procedures for preparing metadata, packaging data for download/distribution, as well as connecting and publishing to the KYGEONET will be detailed. Common errors, streamlined methodologies, troubleshooting and other such topics will be covered during the session. Instructions on how to leverage your KYGEONET data holdings are to be provided to each publisher.
